

Sanjay Gupta

Professional Software Engineer · Web & Android

Websites, Android apps and custom software for businesses in Nepal and abroad, built with the same modern stack I use for my own live products, at honest, fixed prices.

Scan to see my work

01 Website Development

Fixed price · mobile-first · you own everything

Starter Website

NPR 12,000

5–7 days · shops, clinics, personal brands

- ✓ Up to 5 pages, mobile-friendly design
- ✓ Contact form, WhatsApp / Viber button, Google Map
- ✓ Basic SEO, free SSL (https)
- ✓ 1 month free support

Business Website

Most popular

NPR 25,000

1–2 weeks · companies, schools, hotels

- ✓ Up to 12 pages with your own admin panel
- ✓ Edit text, photos, blog and gallery yourself
- ✓ SEO + Google Business Profile setup
- ✓ 2 months free support

E-commerce Store

from **NPR 50,000**

3–4 weeks · online shops

- ✓ Products, cart, checkout and customer accounts
- ✓ eSewa, Khalti and cash on delivery
- ✓ Orders, stock and invoices in one dashboard
- ✓ 3 months free support

Custom Web Application

from **NPR 90,000**

4–8 weeks · businesses with a process to automate

- ✓ Booking, inventory, school or billing systems
- ✓ User roles, dashboards and reports
- ✓ Secure database, REST API, automated tests
- ✓ 3 months free support

02 Android App Development

Published on Google Play under your name

Website to Android App

NPR 18,000

1 week · businesses with a website

- ✓ Your website as a real Android app
- ✓ App icon, splash screen and offline screen
- ✓ Google Play listing and publishing
- ✓ 1 month free support

Android App

from **NPR 75,000**

4–6 weeks · startups and service businesses

- ✓ Sign-in by phone, email or Google
- ✓ Listings, search, forms, notifications
- ✓ Backend + admin panel included
- ✓ Published on Google Play, 3 months support

Android + Web (one codebase)

Best value

from **NPR 1,25,000**

6–10 weeks · products on every screen

- ✓ One React Native app for Android and the web
- ✓ Shared backend, database and admin panel
- ✓ Maps, chat or payments as needed
- ✓ 3 months free support

Marketplace / Platform

from **NPR 2,00,000**

8–14 weeks · multi-user platforms

- ✓ Buyers, sellers, staff: separate roles
- ✓ Verification, bookings, chat, live maps
- ✓ Payments, billing and invoices
- ✓ Like Duleko and FLITO, which I built

03 Hourly & Dedicated Work

For changes, fixes and ongoing development

Hourly

NPR 1,000 / hour

Bug fixes, small features, code review and consultation. Minimum 2 hours.

Day rate

NPR 7,000 / day

A full 8-hour day on your project, ideal for a defined batch of changes.

Dedicated developer

NPR 1,10,000 / month

Full-time on your product (about 160 hours) with weekly demos and reports.

04 Care Plans

Keep your website or app fast, safe and up to date

Basic Care

NPR 1,500 / month

Hosting and domain management, SSL, weekly backups, uptime monitoring, security updates, 1 hour of edits.

Business Care

NPR 4,000 / month

Everything in Basic, plus 5 hours of changes, same-day support and a monthly report.

App Care

NPR 7,500 / month

Android updates for new OS versions and Play Store policies, backend monitoring, 8 hours of changes.

05 Add-ons

English + Nepali (bilingual) site or app	NPR 5,000
eSewa or Khalti payment integration per gateway	NPR 8,000
SMS or email notifications	NPR 5,000
SEO setup + Google Business Profile	NPR 4,000
Extra website page	NPR 1,500
Admin panel for an existing website	from NPR 15,000
Publish an existing app on Google Play	NPR 4,000
Domain and hosting free help with .com.np registration	at actual cost

06 Payment & Terms

- ✓ **50% advance, 50% on delivery.** Projects over NPR 1,00,000 pay 40% / 30% / 30% by milestone.
- ✓ Pay by bank transfer, eSewa, Khalti or Fonepay QR.
- ✓ You own the source code, domain and accounts after final payment.
- ✓ 2 rounds of revisions per milestone; bug fixes are free during the support period.
- ✓ Not included: domain, hosting, paid plugins or APIs, SMS credits, the Google Play fee (USD 25, one time), content and photos.
- ✓ Prices are starting points; you get a fixed written quote after we discuss your needs, valid for 30 days.
- ✓ **10% off** for students, NGOs and first-time small businesses.

07 How We Work Together

STEP 1

Free consultation

A call or meeting to understand your goals and budget.

STEP 2

Fixed quote

A written scope, price and timeline, with no surprises.

STEP 3

Design preview

You approve the look before any code is written.

STEP 4

Build & demo

Weekly demos on a live preview link you can share.

STEP 5

Launch & support

Go live, a hand-over guide, then free support.

08 Why Work With Me

Live on Play

Duleko, a marketplace I built end to end, on the web and Google Play

629 tests

Automated tests on FLITO, my freight platform, so changes don't break things

Low running cost

Duleko runs on free cloud tiers: NPR 0 a month in hosting

Modern stack

React, React Native, Node.js and PostgreSQL, the same tools top companies use
